AFFORDABLE HOUSING

"To be acknowledged for superior service in delivering sustainable housing solutions and to make a significant difference in our communities."

WHAT WE DO?

Cubic Housing holds a 'Community Housing Provider' (CHP) licence. Cubic Housing manages properties that falls under the 'affordable housing' criteria where we offer rental properties to tenants with a stable job but with incomes that falls short for them to rent in the private market.

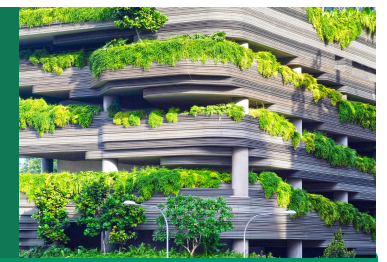

As a CHP organisation, we abide by the strict criteria set out by government regulations and we assess each prospective tenant to determine if they are qualified for affordable housing assistance.

We also advise property developers during their planning process on providing affordable housing on their new developments so that they can achieve a higher 'Floor Space Ratio' (FSR) on their site subject to council approval.

WHO WE ARE

We are a group of property professionals that has been in the industry for many years specialising in the residential marketing.

As real estate is becoming a scarce and highly sought after asset, the property market has reached new heights in terms of demand and ultimately price for both buying and rentals of a property. In this process, the market has created a great divide when it comes to affordability. Cubic Housing recognises that everyone deserves to have a roof above their heads, hence the founding of Cubic Housing.

We are registered as a community housing provider. We provide housing solutions to eligible people on very low to moderate incomes who are unable to access appropriate housing in the private market.

OUR COMMITMENT

At Cubic Housing, we are committed to provide best service to provide your needs. We treat everyone as equals and with utmost respect. Our team are specially trained to abide by our company values.
